Refrigerants & Specialty Gases

Innovative Solutions from the World Leader in Air Conditioning

We're
improving the
present while
creating
the future.

As a global leader in the air conditioning and refrigerant markets, Daikin is dedicated to making a healthier, more comfortable world.

From supermarket refrigeration cases, to cars, to home air conditioning, Daikin develops and produces refrigerants that cool the world.

Daikin is obsessed with quality. Our refrigerants and refrigerant blends meet industry AHRI standards and are UL certified for OEM use. In addition, our medical gases used in inhalers conform with FDA and CPMP standards.

Our growing portfolio of refrigerants enables you to meet the challenges of increasingly stringent regulations while satisfying customer demands.

As the
global leader
in HVACR,
Daikin is
committed
to the
refrigerants
industry.

From our start in 1924, Daikin has grown to be the world leader in air conditioning, with over 90 production facilities spread across the globe and selling products in over 150 countries.

Daikin is the only company with the unique ability to develop and manufacture both air conditioning systems and refrigerants.

With global resources, including our new state-of-the-art Technical Innovation Center, Daikin remains committed to providing best-in-class solutions to the refrigerants industry.

Daikin has a solution for your refrigerant management plan.

Daikin continues to improve and expand its line of refrigerants to meet the needs of an ever-changing marketplace.

Our latest product information can be found in the data pocket to the right.

Please contact us to discuss your unique refrigerant needs.

Products

Daikin America offers a wide range of gas products for a variety of applications including:

- Residential Heat Pumps and Air Conditioning
- Commercial Heat Pumps and Air Conditioning
- Chillers, Air Cooled and Water Cooled
- Commercial Refrigeration including: Supermarkets, Standalone, Remote Condenser Ice Machines and more
- Automotive Air Conditioning
- Medical Propellants
- Fluoropolymer Precursors
- Semiconductor Processing
- Foam Blowing Agents

Samples

We are happy to provide samples for testing and trial runs. Please contact us and let us know what your needs are.
