- Previous laboratory experience is also a plus.
- Must be in current position minimum of 6 months.

Competencies:

- Must utilize good analytical capabilities to complete assignments and utilize good prioritization / task flow recognition to ensure schedules are maintained all the while maintaining safe and accurate work practices to ensure customers are satisfied.

Physical Demands:

- Capable of lifting 50 pounds.
- Have good mobility.
- Be able to work for up to 10 hours in the rotating day shift if needed.
- Have good hearing and a sense of smell.
- Work in a potentially stressful environment.
- Able to work in a clean room suite for up to 12 hours.
- Able to work in PPE (respirator / gloves / face shield) to complete required tests safely.

Essential Functions:

- Prompt, regular, and dependable attendance is an essential function of this job.
- Conduct product testing in order to complete daily test plans and any special analysis needed to support product approval / disposition.
- Accurately prepare check sheets, log sheets, daily summaries, etc.
- Calibration of equipment as required.
- Understand and follow all safety procedures as they pertain to your job.
- Maintain area housekeeping in the Quality Assurance area.
- Manage hazardous materials as needed.
- Know the proper care and use of PPE.
- Have good analytical knowledge and good troubleshooting skills.
- Good environmental knowledge as it relates to QC/QA work.
- Effective communication skills at all levels, i.e., managers, supervisors, peers, maintenance.
- Attend meetings as required.

- Complete incident reports as required.
- Have a basic understanding of the chemical lab/physical lab equipment and its function.
- Have general knowledge to perform minor repairs and preventive maintenance on lab equipment.
- Perform weekly and monthly checks according to schedules.
- Cross train as needed for assignments in the process labs and/or administration labs.
- Attend and complete required training for safety, environmental, quality, and human resources.
- Available as needed for overtime assignments to cover vacation, sickness, special assignments, or routine tasks.
- Use a plant radio system for communication.
- Use plant pagers as needed for coverage and communication.
- Understand and follow work permits as needed.
- Accurately input data into electronic formats such as spreadsheets, e-mail, and databases.
- Follow area work instructions as prescribed and revise those work instructions as needed with management approval.
- Additional assignments as deemed necessary by management.

Position: Hourly – Resume Required for Consideration
